Another record month at Pensacola International Airport

Pensacola International Airport has set another all-time monthly record number of passengers in July, with a total of 175,814 individuals arriving and departing the facility.

This is an increase of 13% over July 2016. Overall, Pensacola International Airport is up some 4% in total passengers for the fiscal year over the same period last year.

"July was another record month for travelers who made Pensacola International Airport their airport of choice," said Pensacola Mayor Ashton Hayward. "The numbers don't lie and they are a testament to the experience travelers get from using our airport." Hayward said. "Pensacola International Airport will continue to be a driving force in our region, providing the best fares along the Gulf Coast."
