

FOR IMMEDIATE RELEASE

Baptist Medical Park – Pace Now Complete

PENSACOLA, Fla. (May 10, 2017) – Baptist Health Care (BHC) is proud to announce the completion of Baptist Medical Park – Pace, located at 3874 US Highway 90 in Pace, near the corner of Chumuckla Highway and Highway 90.

Phase one of the two-story complex was completed in January and phase two was completed in May. The medical park features more than 24,000 square feet of services including Baptist Medical Group Family Medicine & Walk-In Care, Baptist Medical Group Family Medicine – Pace, Baptist Medical Group – Ladies First / OBGYN, Baptist Medical Group specialty physicians, Andrews Institute Rehabilitation, imaging services and X-ray services.

“Baptist Medical Park – Pace is a direct result from our consumers’ preferences and feedback. Our patients wanted easier access to our various providers – from primary care to specialists and other services like X-ray, lab and rehabilitation, says Mark Faulkner, president and CEO, Baptist Health Care. “The completion of Baptist Medical Park – Pace allows us to consolidate those needed, multiple services into one location.”

BHC is community-based and is integrated with the communities it serves. Baptist Medical Park - Pace will improve health care access to the community to better serve the needs of Northwest Florida.

"Baptist Health Care has been a long-time partner in Santa Rosa County. We are delighted to see the expansion of Baptist Medical Park – Pace with its comprehensive care services in a new, convenient and top-notch facility," says Sam Parker, Santa Rosa County Commissioner, District 1. "This extension in our community will help boost our economy and enrich the well-being of our citizens."
