## **BLUE ANGELS HOMECOMING AIR SHOW TWO WEEKS AWAY**

PENSACOLA, Fla. --- The Navy's Flight Demonstration Squadron, the Blue Angels, will close the 2017 season at their annual Homecoming Air Show onboard Naval Air Station Pensacola on Friday and Saturday, Nov. 10-11.

Tentatively scheduled for both days will be extraordinary aerobatics by performers such as the Vertigo Air Shows Jet Glider, the world's only jet-launched sail plane, flown by Bob Carlton; an A-4 Skyhawk flown by Paul Wood; the Mig-17 piloted by Randy Ball; the Super Stearman flown by Greg Shelton with Wing Walker Ashely Shelton; and John Klatt will fly the Screamin' Sasquatch Jet Waco. The Navy Leap Frogs Parachute Team will jump in to the show and Chris Darnell will drive the 300+ mile per hour Shockwave Jet Truck plus many more acts.

Along with incredible flying demonstrations, dozens of military and civilian aircraft will be on display. These static displays will include a variety of aircraft ranging from the present-day, state-of-the-art fighters to aircraft from the 1930s.

In addition to the scheduled Friday and Saturday shows, there will be a special night show from 4:00-6 p.m. Friday, Nov. 10 only. Aircraft will light up the sky with full afterburner and pyrotechnics, and will end with one of the largest fireworks shows in the Pensacola area.
