Covenant Care Seeks Individuals to Join New Patient and Family Advisory Council

Pensacola, Fla., Jan. 6, 2017 – Covenant Care is seeking individuals who are interested in participating on its new Patient and Family Advisory Council (PFAC). The goal of this council is to improve the patient/family experience through collaboration between those who have experienced hospice and the hospice care team.

The new PFAC will allow members to positively influence patient care at Covenant, to network with other members and to help Covenant keep its promise to patients and families. The objectives of the PFAC are to improve communication and engagement with patients and families, and to give patients and families a voice in continuous improvement efforts.

The PFAC will also give members opportunities to positively influence and enhance the patient and family experience, to participate in the development and planning of patient and family engagement initiatives and to serve as a link between the community and Covenant Care.

To apply to become a charter member of the Covenant Care Patient and Family Advisory Council, contact Barbara Fike, Volunteer and Community Relations Manager at 850-202-0924 or barbara.fike@choosecovenant.org . For more information about Covenant Care, visit www.choosecovenant.org.
