MEDICAL CENTER CLINIC ENTERTAINS WITH PLAYER PIANO

PENSACOLA, FL, February 9, 2017: Now until March 14th, the lobby at the Medical Center Clinic will be filled with the sounds of solo acoustic piano. On loan from Blues Angel Music, a Yamaha grand piano with the Disklavier player piano system will be playing classical and contemporary songs autonomously.

Blues Angel Music, a Pensacola music store and Yamaha piano showroom, is loaning the piano to area businesses to spread awareness of their new piano offerings including the Yamaha Disklavier. Businesses can request the piano by contacting general manager Stephen Olsen at 850-457-7557.

About Yamaha Disklavier

Yamaha's Disklavier system starts with a true acoustic piano which incorporates fiber optic sensing systems, solenoid controls, and state-of-the-art computing technology. The reproducing system is capable of playing thousands of songs from Yamaha's library and can be controlled via smartphone or tablet. With Disklavier TV, users have the option of watching performances recorded live. The performance can be watched on the television while the user's piano recreates the performer's exact keystrokes. This is also available for many performances from Yamaha artists including Elton John and Sarah McLachlan.
