Radiation Oncologist Joins Sacred Heart Cancer Center

PENSACOLA, Fla. – Dr. Veronica Carden, a radiation oncologist, has joined the Sacred Heart Cancer Center in Pensacola.

Dr. Carden graduated medical school from Florida State University. She

completed her residency training in radiation oncology from State University of New York (SUNY) Upstate Medical University. Dr. Carden has special medical interests in treating all types of cancers with radiation therapy – especially breast and lung cancers. She is skilled in stereotactic body radiation therapy (SBRT) that delivers precise radiation to small, well-defined tumors at a very high dose.

She joins the practice of Drs. Gerald

Lowrey and Robert Marcus. For more information about Dr. Carden and Sacred Heart Cancer Center's radiation oncology services, please call 850-416-6700.

About Sacred Heart Cancer Center

Sacred Heart's comprehensive cancer program provides patients with the highest standard of cancer care and the most advanced technologies available to fight cancer. Led by highly-skilled cancer specialists and radiation oncologists, our therapies include chemotherapy, radiotherapy, infusion therapies, as well as the newest diagnostic and surgical techniques for treating cancer. Sacred Heart Hospital is the only hospital in Northwest Florida affiliated with MD Anderson Cancer Network®.

For more information about Sacred Heart Cancer Center or Medical Oncology Group physicians, call 877-904-4673 or visit www.sacred-heart.org/cancercenter.
