### Program details

A comprehensive system of training designed to enhance the entrepreneurial skills of veterans in Florida. The program is specifically designed to meet the needs of veteran entrepreneurs regardless of where they are in their entrepreneurial journey. Program consists of three components: discovery workshops, self-paced online entrepreneurship course, and an advanced class of intensive face to face instruction held on UWF's campus. The workshops and online program will prepare you to participate in the advanced instruction starting in late January.
