April 1, 2016

## KEVIN WELCH, MD, GIVES BACK TO AREA LAW ENFORCEMENT

PENSACOLA, FL, APRIL 1, 2016: Kevin Welch, MD, board-certified dermatologist with the Dermatology and Laser Center at Medical Center Clinic, has donated a “Day of Pampering” to several nominees from the Pensacola area law enforcement.

Annually, Dr. Welch organizes a way to give back to the community by donating his time and resources. He has donated complete makeovers for dozens in the community, including those who have been victims of domestic abuse. This year, Dr. Welch chose to support those who have an unwavering commitment to the community - the area’s law enforcement - specifically those who may have dealt with a hardship. The offer was extended to the sworn officers and their significant others of the Pensacola, Gulf Breeze, and Milton Police Departments, and Escambia and Santa Rosa County Sherriff’s Office. Nominated by their peers, the individuals were chosen and enjoyed a Day of Pampering including custom facials, microdermabrasion, BOTOX® treatments (if a physician approved candidate), Intense Pulsed Light treatments (if a physician approved candidate), and massage therapy.

“It has been a tough environment for law enforcement recently. I wanted to do something to demonstrate our support and gratitude for the tough job they are tasked with. Their service to the Pensacola community is incalculable. Everyone seemed to enjoy the experience, including members of the Dermatology and Laser Center. We appreciated the opportunity to show our gratitude to the law enforcement community, and thank them for their service to our Pensacola community.” states Kevin Welch, MD.

One of the nominees, Melanie, enjoyed a Day of Pampering provided by Dr. Welch and his staff.
