

**FAST SIGNS**  
More than fast. More than signs.®

Use SIGNS and GRAPHICS to IMPROVE  
the LOOK and functionality of YOUR facility

FASTSIGNS® helped Trelleborg Wheel Systems beautify their manufacturing facility, improve navigation throughout their campus and pass a brand compliance inspection on a short timeline.

FASTSIGNS installed frosted glass graphics, dimensional letters and directional signage, and built an aluminum clad entryway. Street signage was also added to make streets easy to identify.

Do you need to improve visual communication in your facility or campus? FASTSIGNS is more than ready to help. Contact us today.
