

Greetings!

We are in the heart of summer and while our local beaches are packed and many school children are enjoying their vacations, Achieve Escambia is still working hard to lay the groundwork for our new, collective effort.

We need your help!

One of the most critical, early processes for Achieve Escambia is building out our staff capacity to continue aligning community efforts and resources toward our common vision. We need your help spreading the word about three incredible opportunities:

1. [Achieve Escambia Partnership Director](#)

The Partnership Director job posting will remain live until we find the right candidate. We have received a number of strong applicants. A diverse screening panel will conduct the first round of interviews followed by a final selection panel consisting of [Leadership Council members](#).

2. [Achieve Escambia VISTAs](#) (Volunteers in Service to America) (scroll down to "VISTA ALIGNS OPPORTUNITIES" section):

- a. Communications Coordinator VISTA
 - b. Data Analyst/Coordinator VISTA
-

Through the VISTA aligns grant, Achieve Escambia has been awarded two VISTAs per year, for the next five years. VISTAs come from all walks of life, united in their desire to help communities alleviate poverty through increasing the capacity of community partners.

Please share these opportunities with your network of colleagues, friends and partners that might be interested or can help spread the word!
