To: Partners in our community  
From: Volunteers of America, Chad Franklin  
Subject: HVRP donations

We are pleased to announce that the Volunteers of America location in Pensacola has just received a grant called HVRP, Homeless Veteran Reintegration Program! With this grant, we will be able to help Homeless Veterans find employment. We have hired three new staff dedicated to doing this new job and to provide skills training, doing mock interviews, paying for certifications, and helping them to find employment.

Unfortunately, we're running into a lot of difficulty finding support and donations so we have what we need so we can get this new office up and running. This is where we look to our community for help. We need businesses that are willing to donate furniture, office supplies, and items to beautify the office so it will appear welcoming to those that we serve. We need two nice desks, 8 rolling chairs, lobby furniture, front lobby desk, tables for a 4 person computer lab, and items to beautify it so that the space looks appealing. We're trying to give the very best to these Veterans that have given so much. Our new address for this program, Homeless Veteran Reintegration Program, is 1720 West Fairfield Drive, Suite 505 Pensacola, FL 32501.... It's in the old Town and Country building....

We appreciate any donations that you can provide and we thank you very much!

Sincerely,

Micheal Chad Franklin, LCSW
