**"Jackson's and Julia:
A Celebration of the 104th Birthday of Julia
Child"**

In celebration of famed chef Julia Child's 104th birthday, Jackson's Steakhouse will be offering special features for both lunch and dinner service in her honor on Tuesday, August 16, 2016.

Julia Child was America's first, although fairly reluctant, food celebrity. Although she adamantly insisted that she wasn't a "chef," Child nonetheless single-handedly changed the way we think about food in this country. With a dozen cookbooks to her credit and countless hours of televised cooking shows, Julia Child demonstrated her mastery of French cuisine with unparalleled grace and ease.

In addition to our regular lunch and dinner menus, Chef Irv Miller has created a Julia Child-inspired featured menu: Niçoise salad with artisanal greens, green beans, shallots, tomatoes, capers, tuna, anchovy fillets and Niçoise olives
