Police to apprehend City Instagram

The City of Pensacola is excited to feature the Pensacola Police Department as the next Guest Instagrammer. Join us on our City of Pensacola Instagram starting Monday, July 18th as the Pensacola Police Department takes over our account for a fun and informative behind the scenes peek at what these amazing men and women do to serve and protect our community.

The City Instagram promotes photography and community pride and has recently eclipsed 90,000 #UpsideofFlorida tags. The City of Pensacola periodically hands over the Instagram account to departments and other organizations to give another perspective to followers.

The images produced by the Police Department is likely to be interesting. These will be the same men and women who posted the account of the dog left in the hot car to social media that garnered [national attention](#) and accolades.

Be sure to find and follow us here - www.instagram.com/cityofpensacola
