Pensacola International Airport has lowest airfares in region, FAA report shows

Pensacola International Airport (PNS) leads the Gulf Coast with the lowest average airfares of any airport in the region, according to recent data from the Federal Aviation Administration (FAA). The nationwide airfare data, released this month by FAA's Bureau of Transportation Statistics, covers the 1st Quarter of 2016.

Pensacola led all airports in the region with an average fare of \$454.77 compared to Northwest Florida Beaches International Airport (ECP) at \$463.41, Gulfport-Biloxi International Airport (GPT) at \$472.22, Destin Fort Walton Beach Airport (VPS) at \$512.26, Mobile Regional Airport (MOB) at \$554.86 and Tallahassee International Airport (TLH) at \$574.79.

Our success at the airport has transformed into major improvements for travelers: new airlines and routes, low fares, an easier time getting to where they need to be, and a more relaxing atmosphere," said Pensacola Mayor Ashton Hayward. "Pensacola International Airport is the first and last impression of Pensacola for thousands of visitors so we're doing all we can to maintain the best possible 'Fly Easy' experience for everyone."

About Pensacola International Airport

Owned and operated by the City of Pensacola, Pensacola International Airport (PNS) is the largest airport between New Orleans and Jacksonville, serving more than 1.5 million passengers per year and generating an annual economic impact of over \$565 million. American Airlines, Delta Air Lines, Silver Airways, Southwest Airlines, and United Airlines provide scheduled air service to 11 international hubs, in addition to cargo service from UPS Airlines. With an on-site Hyatt Place hotel, easy access to gates, and free Wi-Fi and charging stations, you can Fly Easy at Pensacola International Airport.
