With a background in marine biology, Marianne McDonald's paintings allow the viewer into a world of marine wonder that shows her appreciation and knowledge of her coastal home. To achieve her desired realistic effect, sometimes it takes months to finish a painting.

Diane Goeller's paintings range from traditional to non-objective. The latter is her real love. A Co-Chair of Quayside's Workshops and a veteran of most of them, Diane has traveled to workshops in many states and Mexico gaining the expertise and inspiration that shows in her work. She has designed many of our "Pensacola Pelicans".

Cathy Painter is a stained glass artist and has specialized in custom orders. Her kaleidoscopes are each one-of-a-kind made using precious stones, crystals, hand blown marbles, glass ware and most any unique item she can find.
