Director of Case Management at West Florida Healthcare Earns Master's Degree in Nursing

August 10, 2016 (Pensacola, FL) – **Bryan Hudson**, MSN, RN, CCM, has earned his Master's Degree in Nursing from American Sentinel University, Aurora, Colorado. He joined West Florida Healthcare in 2012 as a Case Manager and was promoted to his current position as Director of Case Management a year later. In that role, Hudson directs all case management and clinical documentation functions of the all private room facility, including discharge planning, care transition and utilization review. He also holds credentials as a Certified Case Manager (CCM).

A native of Alabama, Hudson became a Registered Nurse in 1993 after earning his Associate of Science degree in Nursing from Mississippi Gulf Coast Community College in Gulfport. He also holds a bachelor's degree in nursing from William Carey College in Hattiesburg, Mississippi. Since then, he has worked in the home health and hospital settings gaining clinical nursing and managerial experience.

Hudson has twice been the recipient of the local HCA Innovators Award and the recipient of the same award at the division level once. This award recognizes innovative employees with ideas that improve patient quality, service or the financial impact of operations.
