## **BIS ANNOUNCES LAUNCH OF CLOUD CONNECT VOIP PHONE SYSTEM**

**Robertsdale, AL (September 2, 2016)** – Business Information Solutions (BIS), experienced IT security company on the Gulf Coast, launches brand new cloud hosted phone solution called BIS Cloud Connect. This solution will allow local business owners to receive an all-inclusive phone system with advanced, high-tech features at an affordable price.

Every phone system comes with an operator dashboard, video conferencing, instant messaging, call recording, free soft phone application, unlimited long distance and voicemail sent directly to your email. In addition to the above features, support will be available for no additional cost from our in-house remote support help desk. The BIS technicians have received advanced certifications and are able to assist customers as needed.

Phillip Long, CEO of Business Information Solutions, stated, “I’m excited to add this new solution to our offerings. The communication industry as a whole has been in a merger and acquisition mode for the last 10 years; resulting in little or no support from local people, we are changing that. Our business community has needed this advanced technology for quite some time.”

To learn more about BIS, call 251.410.7601 or visit [www.cloudconnect.net](http://www.cloudconnect.net).
