PSC Ranks 26th in List of Most Affordable Colleges in Nation

PENSACOLA, Fla. – For the fifth consecutive year, the U.S. Department of Education lists Pensacola State College as a best value among public four-year colleges and universities.

Pensacola State is ranked 26th on the list of 68 institutions cited for lowest tuition in the DOE College Affordability and Transparency annual report. With tuition listed as \$2,704, PSC is seventh among the 24 Florida colleges to make the most affordable list.

Average tuition is \$7,793 for the 677 public four-year institutions across the country, according to the report. In all, the report gives data for 2,641 four-year institutions, including private and private for-profit colleges and universities.

“I am very proud of this national ranking that again puts Pensacola State in the top one percent of affordability for four-year institutions,” said PSC President Edward Meadows. “But, more importantly, I am proud that Pensacola State is committed to keeping costs low while still providing our students with top-quality programs, faculty and opportunities for personal growth.

Computations are based on data for full-time beginning students from the fall 2014 and spring 2015 terms. The report is available online at <http://collegecost.ed.gov/catc/>.

Pensacola State College offers associate and bachelor’s degrees, career oriented certificates, college prep, adult education, GED prep and standard high school diplomas.
